CMA Condensation Resistance PMTG Notes

Friday, March 25, 2011

Chair: *Kevin Vilhauer, Milgard Manufacturing, Inc.*

1. On the call: Ray, Charlie, Mike and Kevin
2. Charlie presented his research findings.
3. Charlie will send final report to Ray by Monday, 3/28.
4. Once final report is sent around the task group members will need to fill out an evaluation and decide on payment. This may need to be done after the meeting and the payment may need to be made between meetings.
5. Condensation Resistance Subcommittee will recommend that a task group be formed to modify language within NFRC 500/501 to accommodate Charlie's findings.
6. Staff will need to consider an RFP for updates to software.
7. We will need to consider funding for this software change.
