

Meeting Notes

TDD Task Group

Monday, October 24, 2011

1:00 p.m. – 2:00 p.m. ET

Chair: *Dave De Block, ODL*

Attendees: D. Charlie Curcija; Dave DeBlock; Gregg Vincent; Howdy Goudy; Neall Digert; Nelson Pena; Robert Hart; Roger LeBrun; Ross McCluney; Dennis Andersen (staff)

1. Call to Order

Dave called the meeting to order at 1:00 pm. est

- a. Antitrust reminder
- b. NFRC Meeting Guidelines

2. Appoint Recording Secretary – Gregg Vincent

3. Review and approve agenda – Approved with no additions.

4. Unfinished Business

- a. Review updated TDD VT Test report by LBNL with Dr. C. Curcija

Howdy Goudy and Charlie Curcija outlined the revised report and noted they discovered some anomalies at 240 degrees azimuth which need more analysis to determine causes as there is no clear answer.

Appendix A for VT was discussed looking at different options for zonal weighted time factors. The data was fairly insensitive to the 3 different options.

5. New Business

- a. TDD VT Testing by LBNL and how a TDD TG can use these results for an NFRC VT label rating.

The task group suggested that additional data be developed using 210 degree and 240 degree azimuth data and combinations of 3 solar angular groupings. The new data tables would be sent out to the task group for review. The TDD agenda shows time for the task group to review the contents in planning for a presentation to NFRC in the Research subcommittee during the Atlanta meeting. Draft report attached for review.

It was recommended that LBNL present the summary of the VT TDD Research Project at the Fall Conference. Charlie will check with Bipin for Research committee time.

Gregg recommended inviting Energy Star representatives to discuss the proposed Energy Star framework for TDD's/skylights. David will send her a note with the minutes to add her to the TDD task group agenda.

6. Adjourn

- a. David adjourned the meeting at 1:50 pm.
