

NFRC's Fenestration Manufacturer's Certificate Means You'll Never Have to Worry About Missing Labels Again

All NFRC-rated windows are shipped to job sites, contractors, and retailers with the NFRC labels affixed to each window as required by the "NFRC 700: Product Certification Program" document, which governs how manufacturers must rate and label fenestration products. For various reasons, these labels may be removed prior to inspection, and the label is required for code or regulatory compliance. To assist in the situations where copies of labels are needed, NFRC has created a provision that allows a manufacturer to reprint the temporary label in individual product situations or use a Fenestration Manufacturers Certificate (FMC). This FMC allows the manufacturer to state the original performance of the product and glazing option and supply the certificate upon request from a responsible party (i.e., building code official, builder, or homeowner). The FMC provides assurance that the product was properly labeled with NFRC Permanent and Temporary Labels by the manufacturer according to the NFRC Product Certification Program.

 NFRC FENESTRATION MANUFACTURER CERTIFICATE			
NFRC Manufacturer: _____			
Contact: _____		Phone: _____	
Address: _____			
City: _____		State: _____	Zip Code: _____

<small>Manufacturer stipulates that these ratings conform to applicable NFRC procedures for determining whole product performance. NFRC ratings are determined for a fixed set of environmental conditions and specific product size. NFRC does not recommend any product and does not warrant the suitability of any product for any specific use. Consult Manufacturer's literature for other product performance information. www.nfrc.org</small>			
Use as many sheets as necessary for each project / location			Sheet ___ of ___

NFRC administers an independent, uniform rating and labeling system for the energy performance of fenestration products, including windows, curtain walls, doors, and skylights.
