

# Thermophysical Property Testing Labs

---

The following labs have successfully participated in the NFRC 103 required interlaboratory comparison and may test materials for inclusion in NFRC 101. Please begin your thermophysical property process by contacting one of the labs below for testing.

Please contact Ray McGowan (240-821-9510, [rmcgowan@nfr.org](mailto:rmcgowan@nfr.org) ) with questions.
